

TECTALOY RADIATOR STOP LEAK

INTRODUCTION

Tectaloy Stop Leak is designed specifically to be compatible with the complete range of Tectaloy coolants and inhibitors. It quickly seals leaks in radiators (aluminium, copper/brass), heaters, thermostat housings and water pumps and is effective at controlling gasket seepage. Stop Leak is a temporary repair product and not intended as a permanent fix. The contents will treat a cooling system up to 12 litres capacity.

TYPICAL APPLICATIONS

Radiators, heaters, thermostat housings and water pumps

ADVANTAGES

- Fast acting formula.
- Suitable for aluminium, copper and brass.
- Stops and prevents leaks.
- Can be added to existing radiator fluid.
- Enables system to operate until repairs can be made.

SPECIFICATIONS

- Ready to use.
- Compatible with all coolants.
- 500mL treats 12 litre capacity.
